Representative National Projects

- 1) Advanced Nanostructured aerogel materials with application to environment depolution by heterogeneous photocatalysis, members –Anca Peter - project coordinator.
- 2) Innovative photocatalytic materials used to chemical and microbiological decontamination of air, MATDECON-PN II 71-099/2007, national project.
- 3) Rehabilitation of tailings ponds by application of amendments and cultivation of vegetal species with high adaptability to the heavy metals-RIVAM, 2008-2011.
- 4) Identification of technical solution for reducing the pollution impact on environment (soil, water) generated by the mine waters/hazardous with high content of heavy metals, 2007-2008.
- 5) Innovative photocatalytic materials used to chemical and microbiological decontamination of air, MATDECON-PN II 71-099/2007, 2007-2010.
- 6) Designing the hazards charts and environment assessment in mining areas of Maramures and Satu Mare counties using GIS – SIG , 2005-2008.
- 7) Connexions to European Excelency Research Related to Environment Problems - CONEX, 2005-2007.

Representative International Projects

- 1) Developing of a biophysicalal system based on zeolites-microorganisms-vegetal species for ecoremediation of tailing ponds coming from gold-silver preparation industry – ZEMIP, 2009-2011
Partners: Technical University of Cluj Napoca, University of Johhannesburg – South Africa
- 2) CII-HU-0010-03-0809 - Teaching and Learning Bioanalysis, 2008-2011

Partners: University of Pécs-Ungaria (coordonator consortiu), Technical University of Cluj Napoca - Romania, Graz University of Technology-Poland, Neophit Rilski South-West University-Bulgaria, Sofia University St.Kliment Ohridski-Bulgaria, University of Zagreb-Croatia, Charles University in Prague-Cehia, Palacký University, Olomouc-Cehia, Eötvös Loránd University – Ungaria, University of Debrecen-Ungaria, University Sts.Cyril and Methodius – Skopje-Macedonia, Warsaw University-Polonia, Universitatea babes Bolyai Cluj Napoca,Universitatea de Medicina si Farmacie Targu Mures -Romania, University in Prishtina with temporary seat in Kosovska Mitrovica, Comenius University in Bratislava-Slovacia, Constantine The Philosopher University in Nitra-Slovacia

3) Education in separation and identification of organic xenobiotics in environmental samples and food product, 2005-2009

Partners: Nicolaus Copernicus University – Torun, Poland (coordinator retea), Universitatea de Nord Baia Mare -Romania, University Pardubice-Czech Republic, Slovak University Technology – Slovak Republic, Technical University of Graz- Austria, University of Pecs – Hungary, Agricultural University Wroclaw – Poland, Medical University of Gdansk – Poland, Comenius University of Bratislava – Slovakia, University of Ljubljana – Slovenia, University of Sofia – Bulgaria, University of Zagreb-Croatia.

4) Investigation of the Risk of Cyanide in Gold Leaching on Health an Environment in Central Asia and Central Europe, IRCYL, ICA 2- CT- 2000- 10065, 2000-2004

Partners: IC Consultants Ltd Uk (coordonator consortiu), Universitatea de Nord Baia Mare – Romania, Medical Institute for Environmental Hygiene Germany; InfoMine Rusia; Kyrgyz Research Institute of Oncology and Radiolgy Kyrgyzstan; Kyrgyz Scientific Center of Haematology Kyrgyzstan; Institute for Regional Studies Kyrgyzstan; Pshysico- Chemical Methods Analysis Center Almaty Kazahstan; University Babes Bolyai Cluj Napoca Romania; Institute of Public Hygiene Cluj Napoca Romania; Institute of Analytical Instrumentation and Environmental Analyses Cluj Napoca Romania; Mining Consortium Research and Companies Deva Romania.

5) Project name: Leonardo da Vinci-2009, acronym MILKILAB

Nr. Partnership agreement: 809 din 14.04.2009

Theme Project: Laboratory methods and recommendations for good practice in animal husbandry to improve raw milk quality on dairy farms

Project manager: PhD. Eng. TIȚA Mihaela – Faculty of Agricultural Sciences, Food Industry and Environmental Protection. Member: Otto Keney

Partners: Universitatea Lucian Blaga din Sibiu , Colegiul Tehnic de Industrie Alimentara „Terezianum” din Sibiu , HBLA Ursprung – Austria

Representative Projects

Romanian national projects

1. Project RELANSIN 931/2000 - Elaboration of biotechnological procedure to produce active dry brewing yeast (2000-2002) (Romanian Ministry for Education and Research)
2. Contract AGRAL 32/2001 - Complex capitalization of starchy raw material through complementary and alternative technologies (Romanian Ministry for Education and Research)
3. Project BIOTECH 3352/2003 – Food and feed protein and vitamin concentrates obtained through biotechnologies (2003-2005) (Romanian Ministry for Education and Research)
4. Project BIOTECH 3344/2003 – Procedure for rapid evaluation of microbiological purity in biotechnology (2004-2005) – scientific manager, researcher / national project
5. Project RELANSIN 2105/2004 - Enzymatic technology and installation to obtain high purity lactic acid from corn for food industry and pharmaceutical use (2004-2006) (Romanian Ministry for Education and Research)
6. Project RELANSIN 1953/2004 - Modernized technologies for canned foods in conformity with requirements of European Union market (2004-2006) (Romanian Ministry for Education and Research)
7. Project BIOTECH 4685/2004 - Biotechnology for conversion of fats in order to obtain single-cell protein biomass with utilisation in food industry (2004-2006) (Romanian Ministry for Education and Research)
8. Project AGRAL 273/2004 - Production of selected dried yeast strain in order to capitalize the specific sensorial characteristics of Romanian wines (2004-2006) (Romanian Ministry for Education and Research)
9. Project AGRAL 5492/2004 - Development of analyse method and impedimetric imunosensors for rapid detection of aminoglycosides (2004-2006) (Romanian Ministry for Education and Research)
10. Project CEEX 40/2006 - Increasing of food safety using unconventional processes for thermal treatment of liquid food products (2006-2008) (Romanian Ministry for Education and Research)

11. Project CEEEX 1117/2006 - Development and validation of imunoenzymatic techniques to detect pathogens, mycotoxins and allergens in foods (2006-2008) (Romanian Ministry for Education and Research)
12. Project CEEEX 63/2006 - Performant microfiltrant composites – effective solution for food safety (2006-2008) (Romanian Ministry for Education and Research)
13. Project RELANSIN 930/2000 - Elaboration of biotechnological procedure to produce high concentrate vinegar (Romanian Ministry for Education and Research)
14. Project RELANSIN 1235/2001 - Complex studies and researches regarding the elaboration and implementation of the technology for natural oil from oleaginous raw materials (Romanian Ministry for Education and Research)
15. Project AGRAL PPB6/2003 - Elaboration of the research and technological development strategy in agriculture, forestry and food industry in the context of integration within European Research Area (Romanian Ministry for Education and Research)
16. Project RELANSIN 2019/2004 - Equipment and technology for ultrasound production with utilisation in food industry (Romanian Ministry for Education and Research)
17. Project Complex 51-020/2007- Development of sustainable technologies to produce baking yeast (2007-2010) (Romanian Ministry for Education and Research)
18. Project PNCD II-P4-6. Biotechnologies - *Innovative technologies of preserving and using of probiotic lactic bacteria with superior performance to increase food security*
19. Project CNCSIS PD-53 – The study of the encapsulation processes of biological agents used in lactose hydrolysis technologies
20. Project BIOTECH 934/2005 – Assuring the food safety and quality of sheep and goat milk by improving the gathering, preserving and processing systems
21. Project CEEEX 40/2006 – Researc regarding the increase of food safety by using nonconventional termical treatment processes of liquid food products

International projects

- 1.Bilateral research programme Romania – Republic of Moldavia – common contracts with the National Institute of Vinery and Wine Chisineu (1994 – 2002)
- 2.Program COST 835 - Micromycètes toxinogènes les plus importants au niveau agricole (1999 – 2001)
- 3.PHARE Small Projects Programme Project “SAFE FOOD All Over Europe” (PHARE/2004/082-071-77)
- 4.Bilateral Collaboration Programme Italia – Romania, University from Verona, Faculty of Sciences, Department of Science and Technology / Microflora evaluation during spontaneous fermentations of Amarone and Cabernet Sauvignon wines and selection of microorganisms useful for maintaining the “territorial” typical traits of wines (2006 – 2008)
- 5.ARW-NATO - Food Safety and Security: Global Holistic Approaches for the Future and Environmental Impacts (membru) – 2007
